Our Focused SAP Managed Services

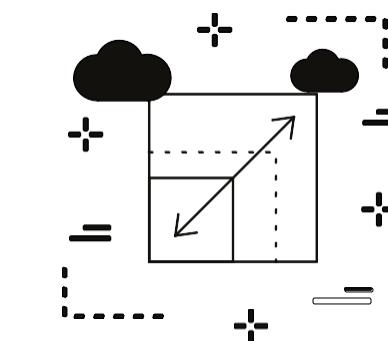

Usability

We have great team that is continuously working in user experience like Fiori setup, GUI and SSO and integration with other industries solutions.

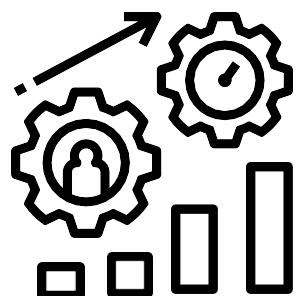

Security

We help in designing the SAP landscape to protect customer's SAP data. This include hardening at several layers – network access etc.

Scalability

Our team monitor growth of customer systems and always ready with recommendations on Scale up or Scale out solutions.

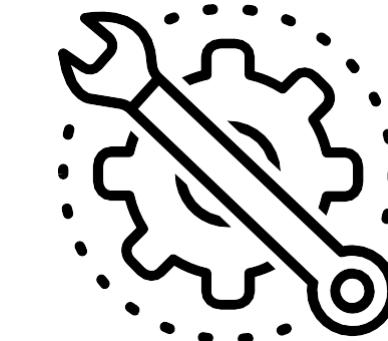

Performance

Our team is proficient in tuning the system to achieve the desired performance on the SAP Systems.

Reliability

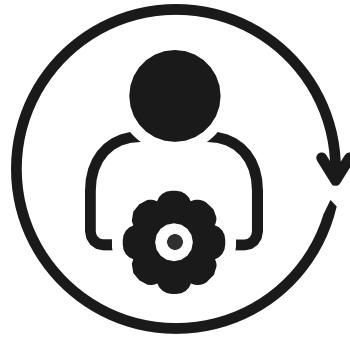

Our SME are best in providing industry best solution in setting up high availability of SAP systems.

Maintainability

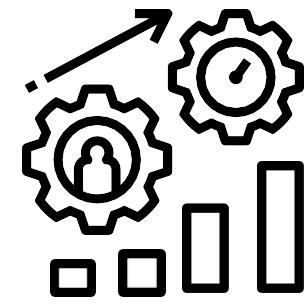

Our Team follow the SAP standard maintenance cycle and help customer to be on the latest patch level.

Our Focused SAP Managed Services

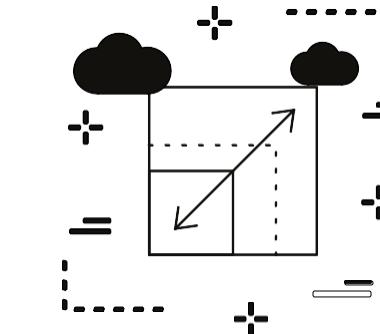

Responsiveness

Our experts are available around the clock, working on support tickets and delivery centers to provide the live, expert solutions clients can rely on

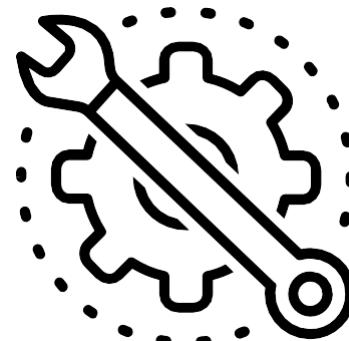

Ownership

As an extension of your IT department, we act on your behalf, managing and taking responsibility for client's SAP applications and their performance.

Resourcefulness

No vague solutions – when there's a need or issue with SAP, it's our responsibility to recommend and implement practical, innovative solutions.

Expertise

Our certified experts leverage their experience and skills to deliver effective solutions. They apply their knowledge to ensure the best outcomes for your needs.

Governance

We hold daily, weekly, and monthly review calls to monitor project progress and ensure alignment with the customer's long-term goals.

Security

We assist in designing the SAP landscape to safeguard customer data, including hardening multiple layers such as network access and more.

Xpense - Smart Expense Management

Intelligent solution for corporate travel and expense management

Xpense is a **paperless, automated, and user-friendly** solution for managing corporate expenses, travel requests, and approvals. Built to simplify expense tracking, it supports ERP integration and enhances employee reimbursement efficiency.

Key Features:

• Travel & Expense Management

- Automated travel requests and approval workflows
- Integration with corporate policies and budgets

• Real-Time Tracking

- Expense submission via mobile app
- Gen AI-powered receipt scanning

• Seamless Approval Workflow

- Automated approvals with notifications
- Role-based access control

• ERP Integration

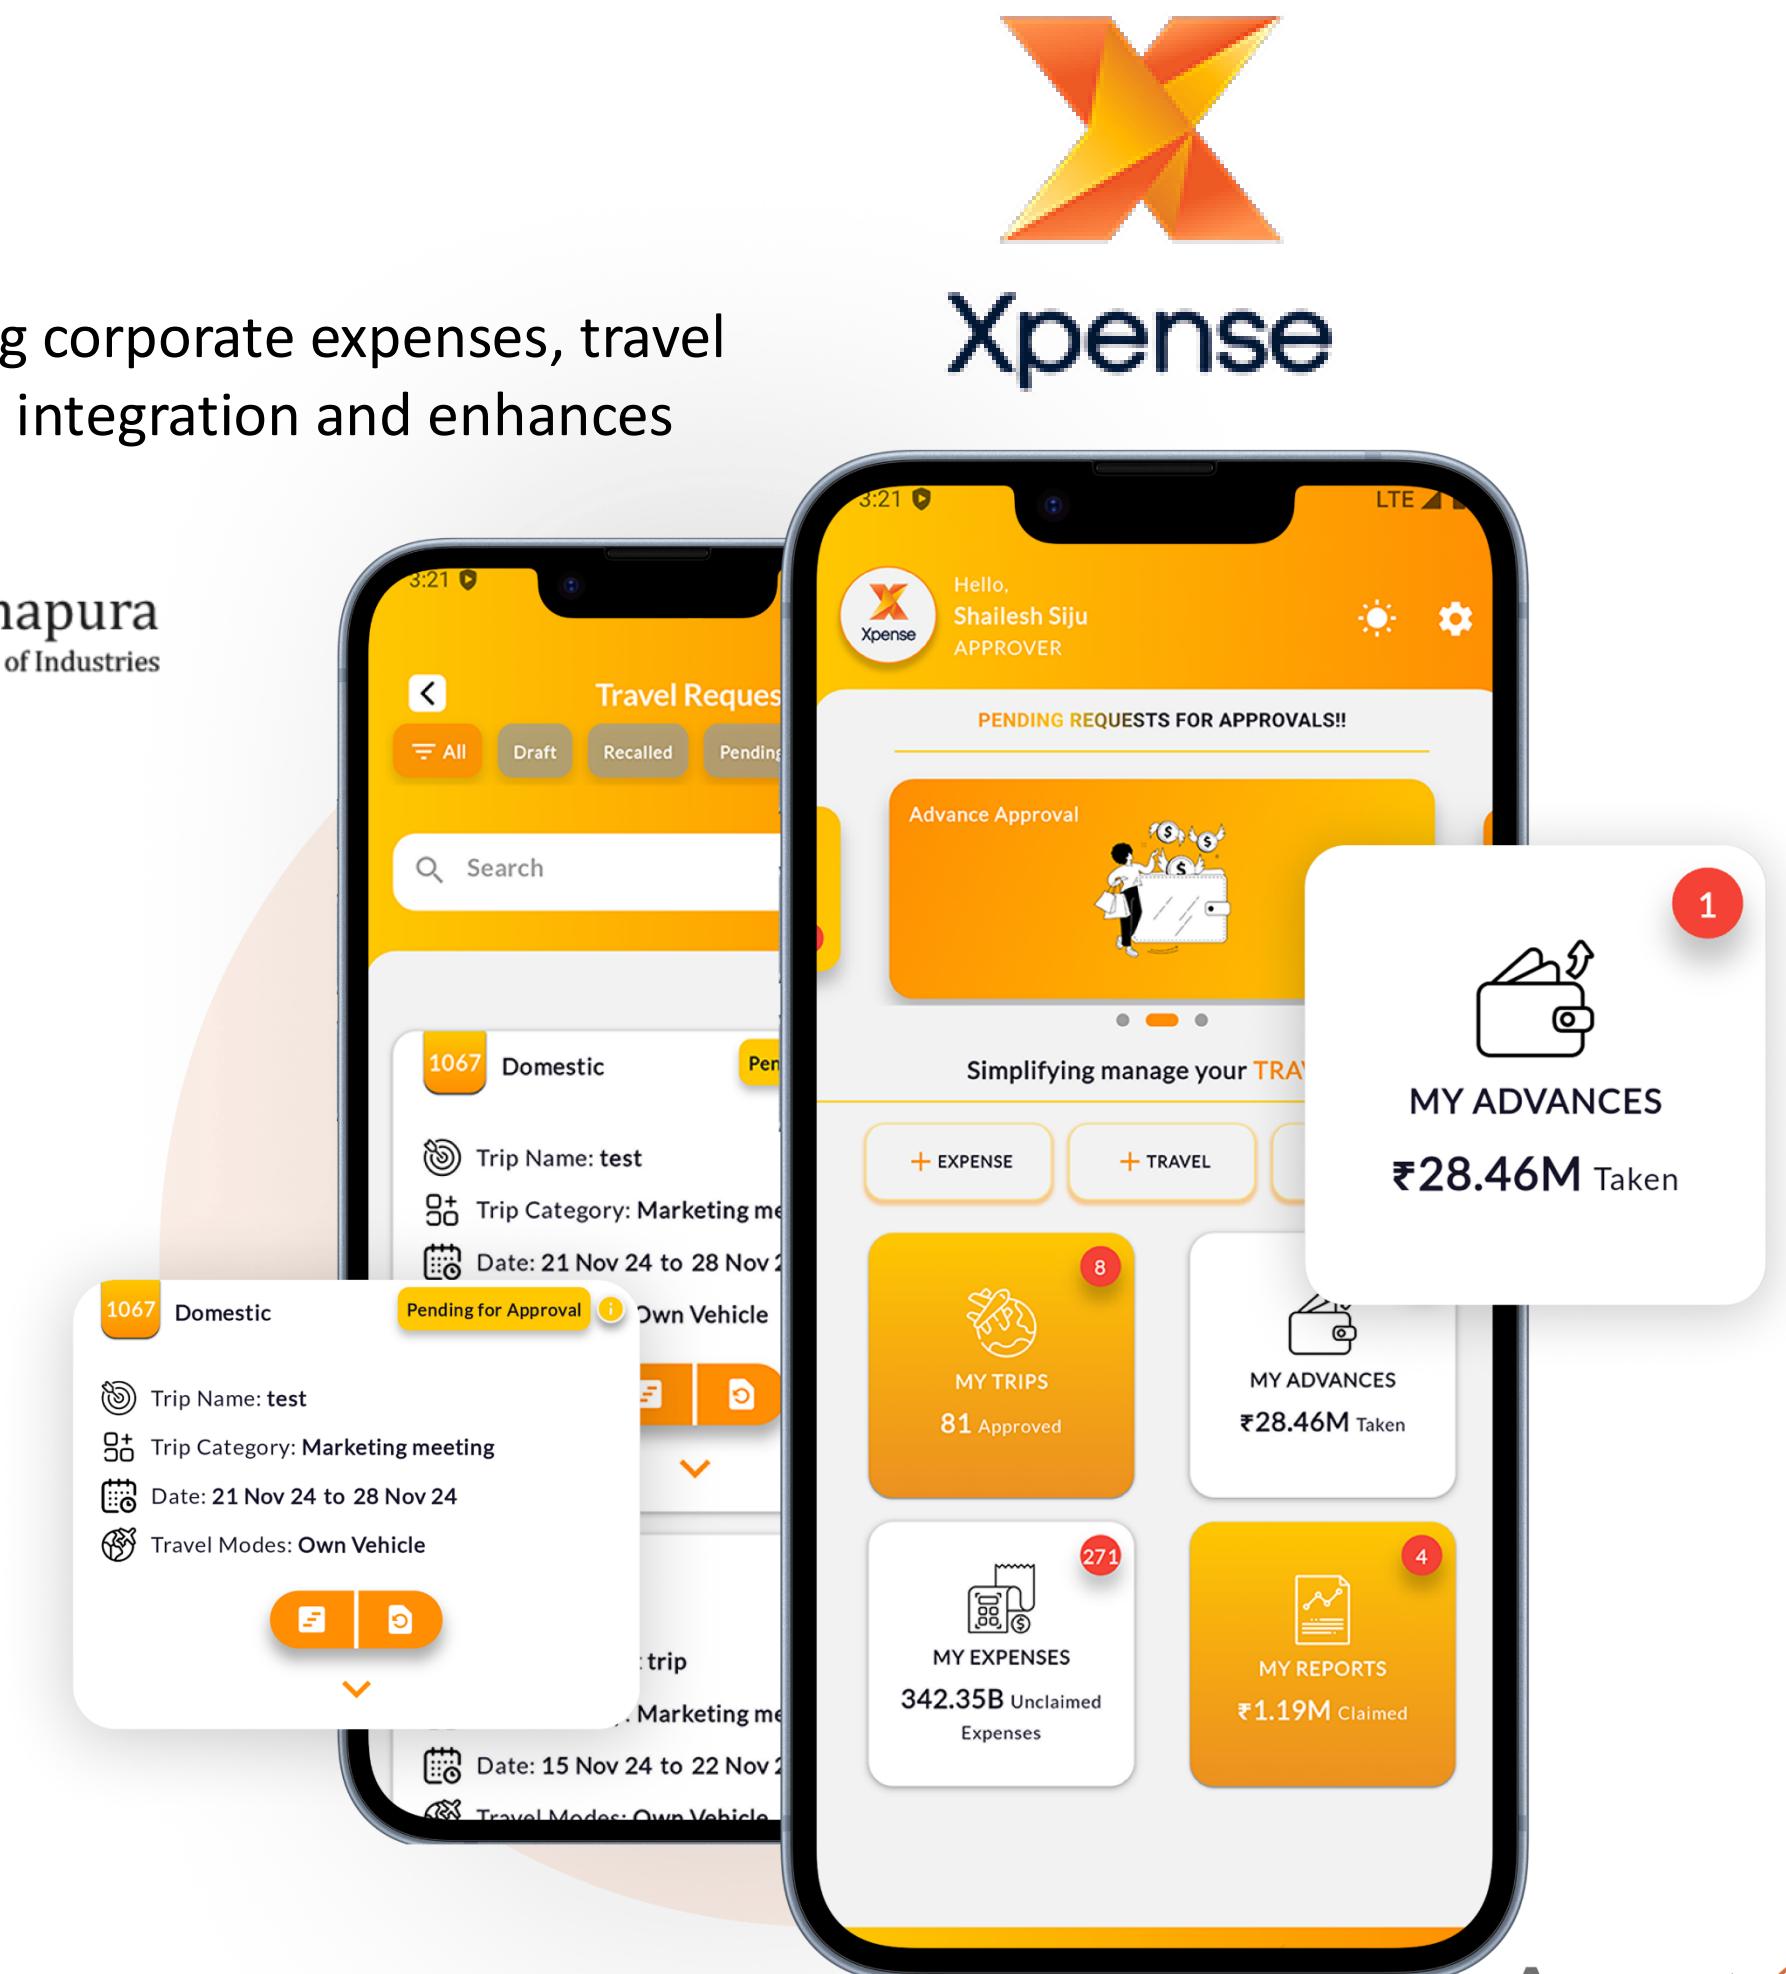

- Sync with SAP, Oracle, and other ERP systems

• AI-Driven Insights

- Smart analytics for cost optimization

Key Benefits:

- 20% Faster Reimbursement Processing
- 100% Paperless Expense Reporting
- Enhanced Employee Satisfaction

SupplierX - Intelligent Supplier & Procurement Platform

Digitized & AI-Powered Supplier Management

SupplierX is a **comprehensive supplier onboarding, procurement, and invoice automation** platform designed to streamline operations. With AI-driven automation and compliance checks, it improves procurement efficiency and reduces manual efforts.

Key Features:

• Supplier Onboarding & Compliance

- Automated vendor registration and verification
- Digital document management

• Procure-to-Pay Automation

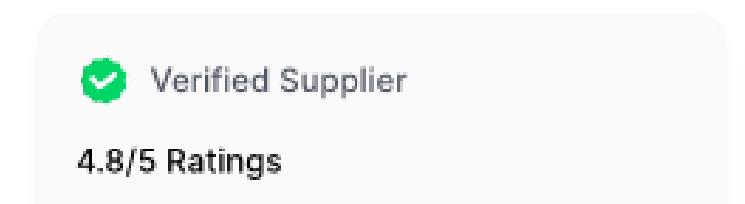

- Intelligent RFQ and purchase order generation
- Reverse auction capabilities

• Intelligent Invoice Processing

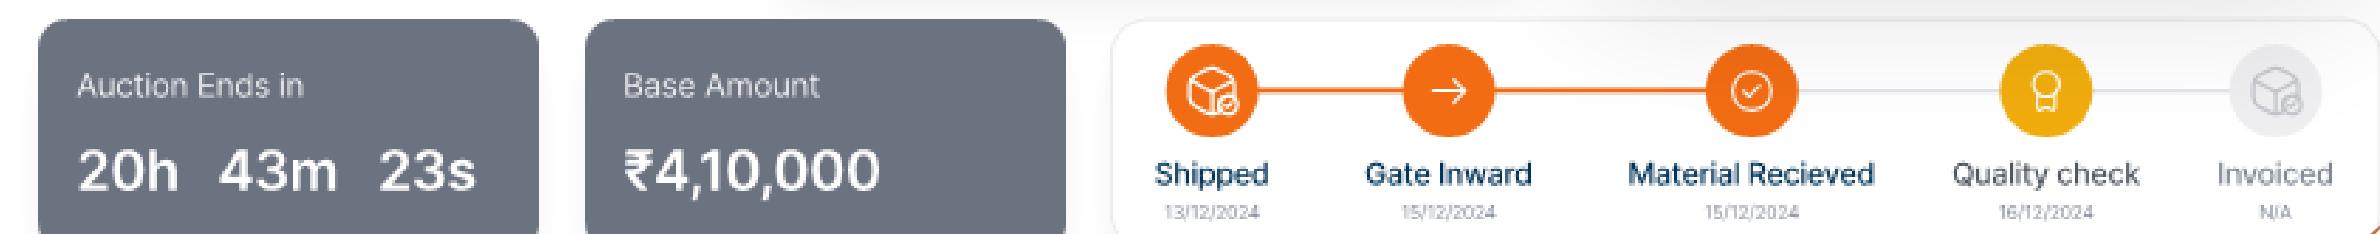

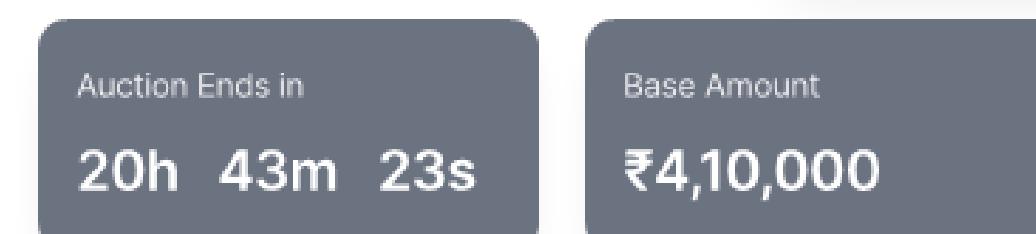

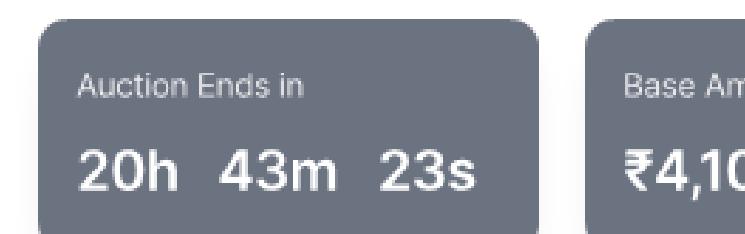

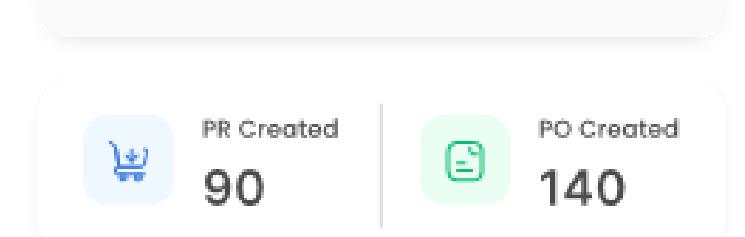

- OCR-based invoice scanning
- Automated validation against PO & GRN

• Analytics & Reporting

- Real-time spend analysis
- Supplier performance tracking

"Supplierx transformed our procurement! Costs reduced by 30%, and approvals take minutes. Highly recommend!"

Key Benefits:

- 30% Faster Supplier Onboarding
- 100% Invoice Automation
- Enhanced Procurement Compliance

Purchase Requisition has been fully approved.

LogystiX - Smart Logistics & Transport Management

AI-Powered Freight & Logistics Booking Solution

LogystiX is an **intelligent transport and freight booking platform** designed for efficient shipment planning, cost estimation, and route optimization. It leverages AI for near-accurate freight rate prediction.

Key Features:

- Transport Booking & Management**
 - Real-time freight booking
 - AI-driven rate predictions
- Freight Cost Optimization**
 - Dynamic cost calculation formulas
 - Automated vendor comparisons
- Route & Delivery Tracking**
 - GPS-enabled live tracking
 - Automated notifications and alerts
- ERP & Payment Integration**
 - End-to-end transport invoice processing
 - Multi-currency and tax compliance

Key Benefits:

- Optimized Freight Cost Estimation**
- Seamless Shipment Planning**
- Enhanced Transport Visibility**

The screenshot shows the LogystiX software interface for generating a transport request. On the left, there's a sidebar with navigation options: Dashboard, Transport (selected), Transporter, Users, and Settings. The main area is titled "Generate Transport Request". It includes fields for Transport Request Type (Customer Sales), TR Number (700770077007), Schedule Date (17 Dec 2024), Source Location (PP01-Ashapura Perfoclay LTD), Route Source (Ler,Near Bhujodi,Anjar-Bhuj Highway), Destination (Anjar,Gujarat India), Kilometers (88 KM), Select truck type (Truck), Truck Capacity (Load 850 Kgs), Material Quantity (10 Ton), Remarks (Enter Remarks), and Expected Freight Rate (1500). A map shows a route from Ahmedabad to Anjar, GJ. A large green checkmark icon is displayed above the message "Transport Request Generated Successfully". Below the message is a blue "View" button. The bottom right corner of the main window says "25 Logystix All rights Reserved." and "Designed & Developed By AeonX Digital".

People Connect - Smart Workforce & CRM Platform

Unified CRM & Workforce Management Solution

People Connect is a **360-degree CRM, pre-sales, and workforce management platform** designed for seamless customer interaction, sales tracking, and internal collaboration.

Key Features:

• CRM & Sales Pipeline Management

- Opportunity tracking and sales forecasting
- Automated quotation and contract management

• Pre-Sales & Costing Automation

- Proposal generation and approval workflows
- AI-driven pricing suggestions

• Workforce & Project Tracking

- Integrated timesheet and milestone tracking
- Automated invoice generation

• Multi-Channel Notifications

- WhatsApp, email, and push notifications

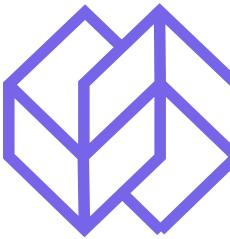

Ashapura
Group of Industries

Key Benefits:

- 15% Increased Sales Efficiency
- Real-Time Collaboration
- End-to-End Sales & HR Management

The screenshot displays the People Connect software interface. On the left, a sidebar menu includes Home, Dashboard, CRM, Customer, Opportunities, Pre Sales, Sales, Projects, Finance, and Human Resources. The main area shows a list of tasks for 'Frontend Dev' under various categories: CRM, PROJECTS, FINANCE, and HUMAN RESOURCES. Each task card includes a user profile picture, name, location (Kolkata, India), status (e.g., PENDING, IN PROGRESS, COMPLETED, SCHEDULED), and date (12/12/2024). To the right, a detailed view of a resume for 'Manish Pal' is shown. It includes basic information like name, location (Mumbai, India), contact details (+91 93846 58399, manishpal@gmail.com), and LinkedIn profile (linkedin.com/in/rahulsharma). Below this is a 'Resume Summary' section with an 'AI GENERATED' button, followed by sections for Technical Skills, Education (Bachelor of Technology in Computer Science from RV College of Engineering, Bangalore, 2015–2019), and Projects (Responsive Portfolio Website).

AeonX IQ - AI-Powered Business Insights

aeonxiq.ai

AI & Data Intelligence for Smarter Decision-Making

AeonX IQ is a **business intelligence and AI-driven analytics platform** that provides actionable insights for enterprises by analyzing structured and unstructured data.

Key Features:

• AI-Powered Data Processing

- Automated data ingestion from multiple sources
- NLP-based text and sentiment analysis

• Smart Insights & Reports

- Custom dashboards for business KPIs
- Predictive analytics for future trends

• Seamless ERP & Cloud Integration

- Direct connectivity with SAP, AWS, and Google

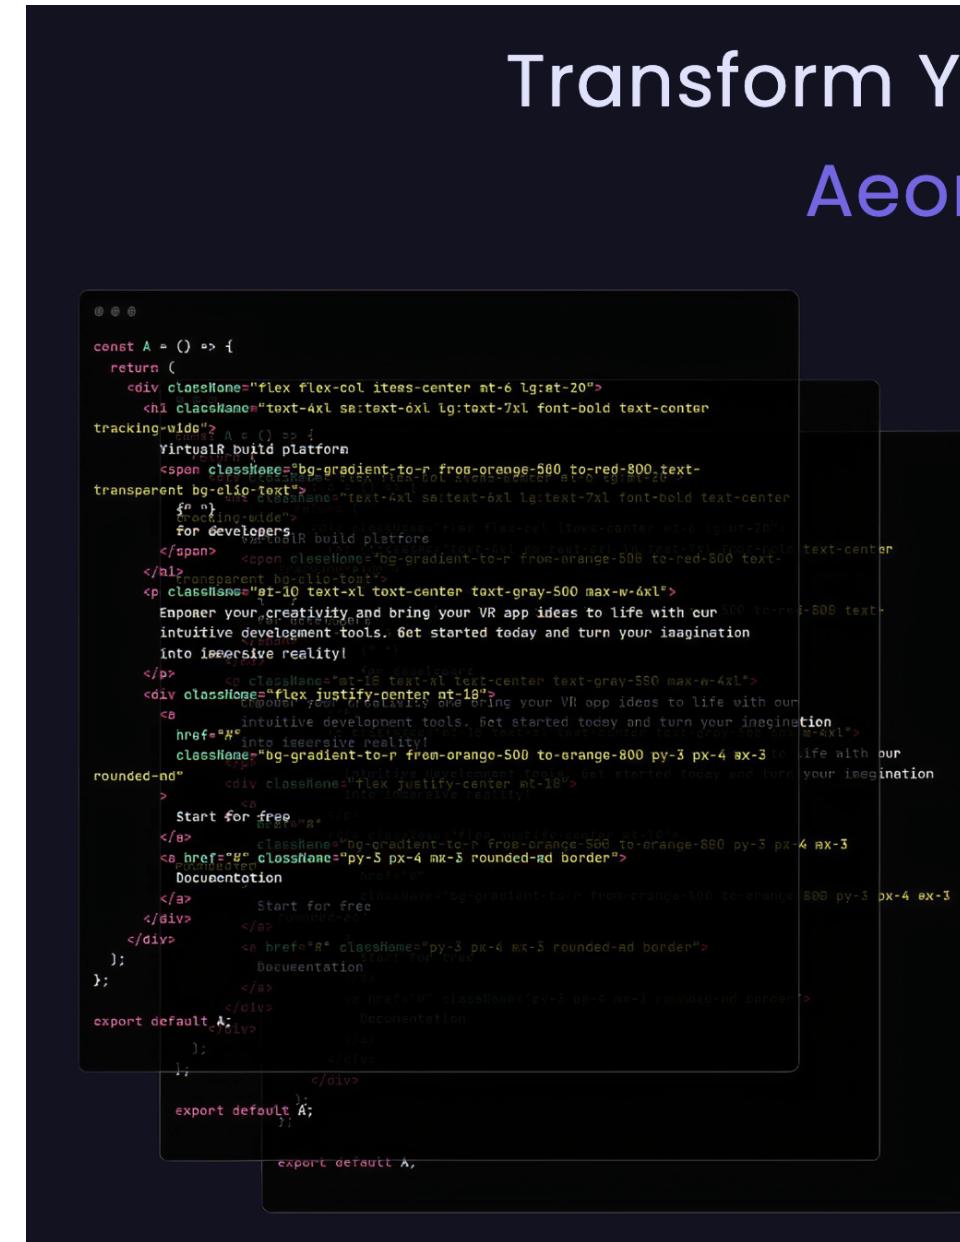

• Automated Alerts & Recommendations

- AI-powered suggestions for operational improvements

Key Benefits:

- AI-Driven Decision Support
- Real-Time Business Intelligence
- Enhanced Predictive Analytics

Transform Your Business with AeonX IQ Hub

- Ⓐ AI-Driven Automation
Streamline complex workflows with AI-powered decision-making, reducing manual effort and increasing efficiency.
- Ⓐ Seamless AI Integration
Easily deploy AI models into CRM, ERP, and business applications without technical expertise or coding.
- Ⓐ Real-Time Insights & Optimization
Monitor AI performance, detect anomalies, and optimize models for better decisions.
- Ⓐ Scalable & Customizable AI Solutions
Train, deploy, and scale AI models tailored to your business needs, ensuring flexibility and long-term growth.
